

# Bluebird Network Dedicated Internet

## Better Bandwidth, Better Productivity

Developing technologies and critical applications can slow down your network. With private peering connections to over 70% of the internet, our DIA delivers the reliable, secure and fast performance you need to efficiently run those challenging applications and stay in touch with your customers.

### Our DIA is right for your business if:

- Your business experiences slow internet speeds consistently - causing long wait times.
- Upload speeds are slow compared to download speeds.
- Cloud applications don't perform optimally.
- Videoconferencing is a challenge for your business.
- You're in need of a service providing multiple connections for full level resiliency.
- Data backups are very slow or delayed.
- Severe storms knock out your business's connectivity.
- You're unsure if your connection is shared or dedicated.

### Bluebird Internet Services

- Dedicated Internet Access
- Burstable Bandwidth
- DDOS Mitigation
- Resilient Architecture
- Port speeds of:
  - 1 Gbps
  - 10 Gbps
  - 100 Gbps

# Bluebird Network Overview

## Company Summary

- Eleven state fiber optic network
- Network enabled up to 400 Gbps
- 10,000+ route miles of fiber
- Access to over 82,000 business locations
- 151 Points of Presence (PoPs)
- Dense fiber footprints in major metro hubs such as Kansas City, St. Louis, Columbia, Rockford, Bloomington, Peoria, and the Quad Cities
- Connected to regional internet exchanges
- Two strategically placed data centers, both carrier neutral facilities
- Access to 220+ Cloud On-ramps
- 61% of data center energy from renewable sources
- Wide range of data center services available including colocation, remote hands, cloud connect and more

## Connected Internet Exchange Points

- KCIX (Kansas City Internet Exchange)
- STLIX (St. Louis Internet Exchange)
- SpringIX (Springfield Internet Exchange)
- QCIX (Quad Cities Internet Exchange)
- Indatel Exchange

## The Bluebird Difference

### Flexible

Tailored solutions to meet your needs and plans for future growth.

### Customer Focused

Understanding your business challenges and solving your problems.

### Deliver On Time

The world's largest communications companies trust Bluebird because we do what we say we will do.

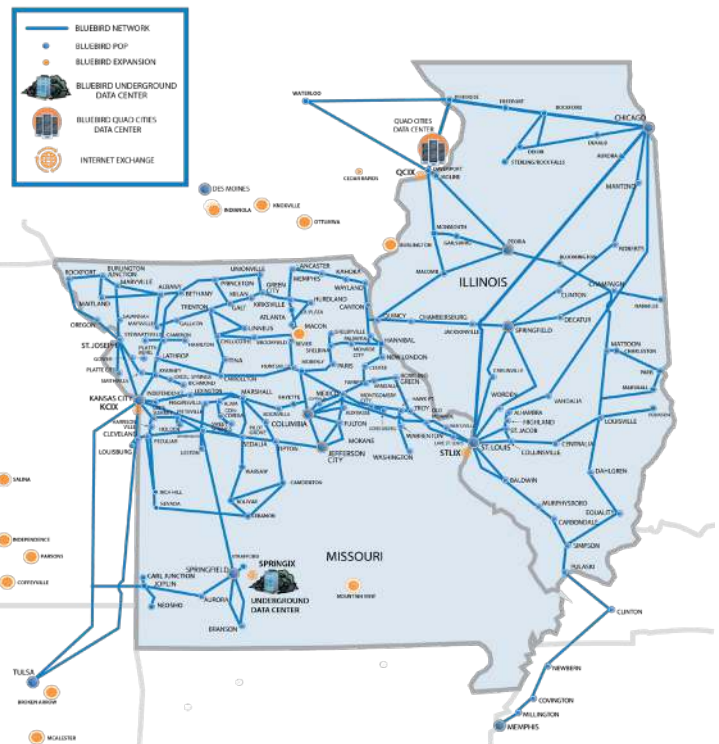

### World-Class Infrastructure

Our network infrastructure is rapidly expanding and adheres to industry standards that ensure our superior level of service.

## About Bluebird Network

Bluebird Network is a communications infrastructure provider and data center operator. Since 1999, Bluebird Network, headquartered in Columbia, Missouri, has provided internet and transport services, via its fiber infrastructure, to Carriers and Enterprises in Missouri, Illinois, Kansas, Iowa, and the surrounding states. Bluebird owns two data centers: an underground facility in Springfield, MO, and a facility in the Quad Cities. Bluebird operates over 10,000 fiber route miles of high-speed broadband and fiber-optic connections with over 82,000 on-net and near-net buildings and 151 Points of Presence (PoP) sites spanning the Midwest, including the major cities of Chicago, St. Louis, Kansas City, Springfield (MO and IL), Tulsa, Peoria, Rockford, Bloomington, Normal and the Quad Cities.
